

シフトした文字がある行の高さ制御

`line-height-shift-adjustment` プロパティは行の高さを決定するとき、行内の `baseline-shift` によってシフトした上付き/下付きのテキストの高さを考慮するかどうかを指定します。`line-height-shift-adjustment="consider-shifts"` (既定値) のとき、上付き (`baseline-shift="super"`) の文字上端や、下付き (`baseline-shift="sub"`) の文字下端も行の高さに影響します。`line-height-shift-adjustment="disregard-shifts"` のときは影響しません。なお、`line-height-shift-adjustment="disregard-shifts"` で行の高さが影響しないのは `baseline-shift` のみです。`baseline-shift` 以外で行の高さに影響を与える要因がある場合は指定があっても行の高さが変化します。例えば、シフトさせる文字の `font-size` がベースのテキストより大きい場合などです。

上付き/下付きのシフトさせる文字なし

A horizontal bar with a yellow background. The text "Sample Test" is centered in black. The bar is flanked by grey bars above and below.

`line-height-shift-adjustment="consider-shifts"` (既定値)

A horizontal bar with a yellow background. The text "Sample® Test©" is centered in black. The registered trademark symbol (®) and copyright symbol (©) are positioned higher than the main text. The bar is flanked by grey bars above and below.

`line-height-shift-adjustment="disregard-shifts"`

A horizontal bar with a yellow background. The text "Sample® Test©" is centered in black. The registered trademark symbol (®) and copyright symbol (©) are positioned higher than the main text. The bar is flanked by grey bars above and below.

`line-height-shift-adjustment="disregard-shifts"`、シフトさせる文字サイズ 1.5em

A horizontal bar with a yellow background. The text "Sample® Test©" is centered in black. The registered trademark symbol (®) and copyright symbol (©) are significantly larger than the main text and are positioned higher. The bar is flanked by grey bars above and below.
